# COMPANY OVERVIEW

## Our Experience

After 20 years in the IT industry, we decided to alter direction. Now, we share use our experience to help others. Our ramp up process is designed to empower your technical team and outfit them with the tools they need to succeed.

## Our Approach

Our service includes a comprehensive consult to help identify gaps and opportunities, a comprehensive report that includes a project plan with timelines and milestones, a cost analysis, and a schedule. We also offer a suite of quality products that will help you get there quickly and smoothly.

## Why Us ?

Business mentors are key—that's why when it comes to client selection, we're choosy.

We want to give each of you the time and guidance they deserve.

We didn't get there alone. And neither will you. Connect us today.

**“HELPING  
BUSINESS TO FIND  
A BETTER SOLUTION”**

The face reader is capable of scanning multiple faces from a distance and records temperature of each person. The system is widely used in Temperature scanning & Access control scenario such as Airports, Railways, Passenger Ferry Terminals, Banks, Corporate and Government offices,

Access control

"We don't want to push our ideas on to customers, we simply want to make what they want."

**We built our reputation based on quality, reliability and value for money.**

## Identification Technology

Infinio and their partners operate over 10 years of project experiences in the security protection field and the continued changing security environment in the high growth of security needs.. The consortium is always making great effort to become a navigator in the Security Protection Industry.

INFINIO Self Check-in kiosks automate the reception functionalities such as Check-In, Check-Out or Reservation amendments. Kiosks can either be used as agent assisted or self-service based. This helps the hotel owners to think out of the traditional reception desks loaded with papers and supports the business to reduce carbon footprints, go paperless to minimize the operational expenses. INFINIO Kiosks are seamlessly interfaced with the leading PMS systems in the market such as Opera PMS, WinHMS, xnProtel, IDS

## Entrance Automation

## Mechanical and electromechanical locking

VingCard Essence revolutionizes the electronic lock industry by housing all lock components, including the reader and mobile access board, inside the door and therefore, reaching the maximum minimalistic expression, the true essence of an electronic lock.

We are a leading IT based consulting and business process services company. We implement new ideas and offer solutions to a rapidly evolving business structure. We offer an efficiency-driven problem solving assistance to our stakeholders so that they can have an edge over their competition. We ensure our customers to get 360 degree overview over their business hemisphere and we pledge that the life mission of our company is to provide them the tools necessary to attain it.

## Web Design and Development

**Maybe. We've only just met,  
but we've got a good feeling already.**
